STAINLESS STEEL HIGH
PRESSURE WASHGUNS

Product code **E315 – 0194** Wash Gun

A complete range of high quality and heavy duty stainless steel wash guns, complete with “dead man” low effort trigger control, flow straightener and standard interchangeable 1/4” nozzle.

Totally corrosion resistant for use in all conditions and temperatures.

Supplied with 1” quick release couplings – 1 x male fitted to wash gun and 1 x female supplied loose.

Robust design allows high level damage resistance during arduous tower climb operations.

Operating Pressure 1000psi; Maximum Pressure 3000psi

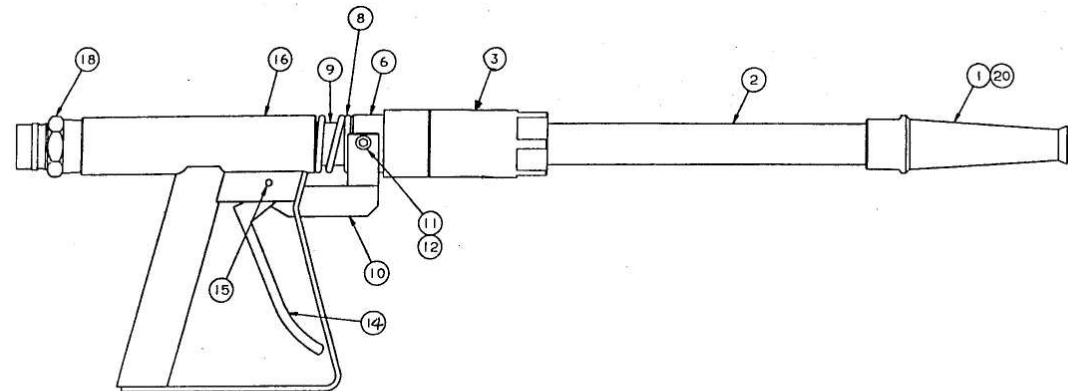

OPTIONS

1. Optional high quality stainless steel 63mm diameter pressure gauge suitable for an operational temperature range of – 25° C to + 98° C.
Black and red markings, glycerine liquid fill with brass movement.
(Code: C417-6059)
2. For use on coated and composite insulators reduced impact 7 / 32” nozzles are recommended (Code: C417-6058)
3. For high wind conditions, wash guns with 5/16” nozzles are available
(Code: C417-6056)
4. 3 / 4” quick release couplings (Code: E315-0194 -34)
5. 10 foot (3m) fly hose with quick release couplings 1” or 3 / 4” (Code: IW410049)
